Newest MRP Team Member!

MEET OUR NEWEST MEMBER!

Congratulations to Christian and Amanda Fachko as they welcomed, William Henry Fachko into the world on 5/23/2023. Amanda, daughter of President, Tod Cislo has been with Marathon for 7 years and her husband Christian, a year. As a family company we are very excited to bring in the newest addition to Marathon!

AFTER 32 YEARS RON SMIGIERA IS CALLING IT A CAREER

Ron Smigiera started with Marathon in June of 1991. A lot of things in the world have changed since then but not Ron providing his services for Marathon. On Tuesday, June 6th 2023 we celebrated Ron's Retirement at The Original Warehouse restaurant in Orchard Park. Ron was presented gifts from the staff and a retirement check from President, Tod Cislo. Ron's last day of work was June 23rd 2023. Ron, a man of very few words told the group at the retirement party, "I'm really going to miss you guys".

A MESSAGE FROM PRESIDENT, TOD CISLO

It is with great gratitude that we bid farewell to our longest tenured employee of 32 years, Ron Smigiera. We wish him all the best as he enters the next stage of his life where he and his wife Corinne will be enjoying the well-deserved time together and will be able to spend more time with their son Jason and his wife and grandchild. To add to the excitement of the moment he has also informed us of the announcement of his second grandchild. Congratulations and best of luck from all your work family at the Marathon Companies. Cheers!

FEATURED PROJECT: Broad Street Pedestrian Plaza

In 2015, the City of Atlanta closed a section of Broad Street to vehicular traffic in hopes of increasing pedestrian activities while revitalizing the retail market.

Utilizing our SE series self-leveling adjustable pedestals, along with Iron Woods Green By Nature IPE deck tiles, the result is this pedestrian plaza shown below that has been enjoyed by the masses since.

NEW PRODUCTS AVAILABLE!

Universal Wind Uplift Kit:

A simple peel and stick application designed with the contractor in mind now eliminates the lead time for custom parts to install your wind uplift paver job. Designed for porcelain and concrete pavers, finish your projects faster than ever.

Concrete Pavers:

NEW hidden lockdown for concrete pavers. Simply prime the concrete paver with the MRP primer and stick the attachment in each corner of the paver. Take in stock pavers at your manufacturer of choice and apply. No more lead time for kerf cuts in the pavers. Use it with any size paver!

Porcelain Pavers:

Hidden lock down attachment allows contractors to use with any size paver. Used in conjunction with a metal safety back for peak safety performance and wind resistance. No lead time allows customer to start project immediately upon paver delivery.
