## Featured Project: Astella Apartments—San Francisco, CA

Explore the scenic overview of the amenities at Astella Apartments, located in San Francisco. This prestigious project features our broad selection of Porcelain pavers, enhancing the beauty and functionality of the apartment's outdoor spaces.

Interested in learning more about our Porcelain pavers for your next project? Give us a call at 716-332-7673 for more details.

## NEW Product: Cantilevered Perimeter Spacer

The cantilevered spacer is a galvanized steel profile, 34" long, to be applied to the head of the supports close to the wall to solve the problem of small cantilevered slabs, which would otherwise be suspended without support.

In section, the spacer has grooves for housing the fins and is supplied with a 0.4" rubber grommet already applied to the surface rails. Thanks to its special shape, it acts both as a plate block and as a perimeter spacer, creating a 0.39" gap from the wall. It is also equipped with territories to facilitate water drainage.

## FEATURED Product: Wind Uplift Solutions

Tailored for both porcelain and concrete pavers, the Universal Wind Uplift Kit is our patent-pending quick-install solution that features a simple peel-and-stick application.. This kit eliminates the lead time for custom parts, allowing you to finish projects faster than ever.

**Porcelain Pavers Wind Uplift:** Our hidden lock-down attachment works with any size paver and is used alongside a metal safety back for peak safety performance and wind resistance.

**Concrete Paver Wind Uplift:** Just prime, stick and secure with our new hidden lock-down system. Suitable for any size paver, this system lets you take in-stock pavers and apply with no need for kerf cuts.

# MARATHON COMPANIES BRING BACK A FAMILIAR FACE

Tony Venturoli, a seasoned veteran in sales and former employee of The Marathon Companies, has rejoined the team to take on the role of Special Projects Coordinator. After discussions with owner Tod Cislo, it became clear that Tony's enduring passion for project coordination and his enthusiasm for the work make him an excellent fit for this new chapter at Marathon.

We are committed to nurturing our young sales team and equipping them with the skills needed for success, and Tony's expertise in building strong customer relationships and guiding their decision-making is an invaluable asset. His ability to demonstrate the importance of our customers and the confidence they can have in our products is a rare and impactful skill, and a key reason why he has earned their loyalty.

In this role, Tony will also collaborate with our independent representatives to develop more effective and cohesive Territorial Development Plans, fostering a stronger, more successful approach. It is an honor to welcome Tony back to Marathon, and we are excited about the many great contributions he will bring. His energy, positivity, and enthusiasm are sure to inspire both our team and our customers. As Tony himself says, "Bring it!"—and at 72 years young, he truly embodies this spirit.

## ***A Message from Jake:***

Happy New Year to everyone! We extend our heartfelt thanks to all who contributed to making 2024 a record-breaking year at MRP Supports. As we step into 2025, it promises to bring new opportunities and growth. Here's to another remarkable year together!

***Jake Cislo - MRP National Sales Manager***
