Marathon Invests in Tractor to Prepare for Winter Season:

Marathon purchases new front loader tractor to assist with snow removal for the upcoming winter season. After two seasons with major blizzards that hit with snow totals of up to seven feet per event, it was time to add some power equipment. The new unit has a fully heated cab that will allow for us to make sure that even the craziest Winter storms won't stop us from getting product out the door for our customers. The tractor will allow us to position inventory as well, with the additional accessory of a fork attachment, to get additional use throughout the year. As the owner, Tod Cislo, always says; "we need to be innovating and adding things to keep us at the top of our game." Jokingly, he wishes that we have little use of the new tractor, because these storms are taxing on all of us.

FEATURED PRODUCT: MRP Stone Grid/Turf Tray

Excellent for Use with Odd & Oversized Tile & Slabs

The safety grid/turf tray is made up of a panel measuring 20"x20" and 1.5" high, produced with black thermoplastic polymer. The purpose of this panel is to create a sub-floor on which various types of flooring can be directly laid on, such as porcelain stoneware, marble, stone, etc. The grills are placed side by side and linked to each other by means of the "dove-tail" joints arranged along the entire perimeter, thus forming a continuous and robust surface.
